

Operations Review

Third Quarter 2026

Executive summary

Fulfillment time improved by 18 percent while customer satisfaction reached 94 percent. The program completed 12,480 orders across three regional facilities.

Key measures

Orders processed: 12,480

On-time delivery: 96.2%

Average cycle time: 2.8 days

Regional performance

East led growth at 14 percent, followed by Central at 9 percent. West remained stable while its new automation line completed commissioning.

Next actions

1. Expand the East shift pilot.
2. Complete West automation validation.
3. Review carrier capacity before peak season.
